Wednesday, October 5: Intro Unit Test Do-Over! Monday and Tuesday, October 24, 25: Traffic quiz (Parts 1 and 2)Monday , Tuesday, November 14 and 15: Traffic Test Unit October 2, 2011Assurable goal: I can explain the difference between distance and travel.- Distance vs. move activity- Distance vs. Move Work sheet October 5, 2011- Intro Unit Test Do-Over! October 6, 2011 Learning Purpose: I can calculate the average speed.- Notes: Movement Part 1- Trip to School Activity- Average Speed Work sheet October 10th 11, 2011 Training Goals: 1. I can use a motion sensor to create a graph.2. I can explain the time distance graph.- Notes: Movement Part 2- Graping Student Traffic Activity- Motion Sensors 101 October 12 and 17, 2011Inme target: I can explain the movement and speed of the object by analyzing the traffic schedule.- Movement Graphics Package-Movement Sheet-Interpretation Graphics: Linear Motion October 13th 14th, 2011Thiritying Purpose: I Can Identify Parts of the Scientific Method. (review) - Physics Preview Of the Scientific Method October 18th 19th, 2011Out Goals: 1. I can create a time distance graph based on the movements I make.2 I can predict a speed time graph based on the movements I make. - Moving Man Online Activity- Traffic Schedule Review October 20, 21, 2011Tued Goals:1. I can explain the acceleration. I can calculate joining.- Notes: Movement Part 3- Accelerating Practice Problems October 24 and 25, 2011Reading Goals:1. I can calculate distance, displacement and speed2. I can explain and calculate the acceleration.- Movement quiz (Parts 1 and 2) - Acceleration Of Reading and Practice October 26, 2011Saturising the goal: I can explain if mass affects acceleration.- Laboratory: Speed and Acceleration October 28, 31, 2011Learning Goals:1. I can explain the traffic map. I can link the mass, size, and shape of an object to the impact of gravity on that object3. I can calculate acceleration.- Notes: Movement Part 4 - Movement Maps- Movement Map Leaf-Request Activity: Free-Fall-Equal Acceleration Practice Problems November 1 and 2, 2011Readed Goals:1. I can explain the effect of gravity on objects in free fall2. I can explain the difference between linear and missile movement3. I can solve the problems of the movement of the projectile.- Notes: Movement Part 5 - Free Fall - Gravity- Notes: Movement Part 6 - Rocket Movement- Rocket Movement Problems 3 and 4, 2011- ACT Practical Test for Juniors- Makeup Day 7th 8th, 2011- Group 1 Review Part 1-Group 1 Review Part 1 Homework November 9th 11th, 2011- Group 1 Review Part 2 14 and 15 , 2011- Group 1 TestMAKE SURE YOU BRING CALCULATOR!!!! 4th, 5th, 6th, 7th, 8th, 9th, 10th, HomeschoolPage 26th, 7th, 8th, 9th, 10th, 11th, 12th 8, 9, 10, 11, 12, higher education, adult education, homeschool, StaffPage 2 physical science distance and displacement worksheet answer key
