1. What is the characteristic of NIMS management that includes documents that record and communicate with incident targets, tactics, and tasks for operations and support? A. General Terminology B. Information and Intelligence Agency C. Planning for Incidents in connection with Incidents D. Integrated Communications 2. What structure does ICS allow different jurisdictions to jointly manage and direct incident activities through a single incident action plan? A. District Command B. Joint Information Center C. Unified Command D. Incident Management Group 3. What is the characteristic of NIMS management that follows established processes of data collection, analysis, evaluation, exchange, and management? A. General Terminology B. Information and Intelligence Agency C. Integrated Communications D. Creation and Transfer of Command 4. What does NIMS management characterize include the use of standardized names and definitions for core organizational functions and units? A. General Terminology B. Unified Command C. Modular Organization D. Comprehensive Resource Management 5. What is the ability to coordinate resources throughout the incident? A. Order and Acquisition of B. Demobilize C. Reparation and Restocking D. Track and Report 6. Incident information is used by ICS, EOCs, MAC Groups and JIS to assist in planning, determining the cost of incidents and identifying security issues. A. TRUE B. FALSE 7. Each ICS General Staff is headed by the A.D., which reports directly to the incident commander or joint command. A. Head of Division B. Administrative Body C. Head of Division D. Group Supervisor 8. The Emergency Assistance Treaty (EMAC) is a government system for sharing resources during an emergency or natural disaster. A. TRUE B. FALSE 9. Is the use of communication and information systems familiar to users part of a key principle? A. Reliability, scalability and portability B. Security C. Compatibility D. Sustainability and redundancy 10. Three NIMS guidelines: A.'s flexibility, standardization, unity of effort. B. Unity of effort, readiness, resource management. C. Planning, responding, recovery. D. Resources, organization, standardization. 11. Using social media to support activities such as mapping and incident visualization is an example of what is the standard of communication? A. Common terminology, plain language and compatibility B. None of the above C. Using D. Information Security/Operational Security 12 technologies and procedures. What is the task of resource management deploying or activating personnel and resources? A. Identify requirements B. Track and report C. Order and Acquisition of D. Mobilize 13. Which of the following EOC features? A. Coordinating plans and identifying needs C. All of the above C. Gathering, analysis and information exchange D. Ensuring coordination and policy direction 14. What is the characteristic of NIMS management among the subordinates who report directly to the manager? A. Modular Organization B. Chain of Command and Unity of Unity C. Management of Targets D. Managed Overflight Control 15. Keeping the flow of information smoothly describes what key communication and information systems are a principle? A. Reliability, scalability and portability B. Security C. Compatibility D. Sustainability and redundancy 16. Which organizations should participate in the planning of communications? A. MAC Group B. All stakeholders C. District Command D. Planning Section 17. What NIMS command and coordination structures are behind the locations where staff from several agencies gather? A. Incident Command Structure (ICS) B. Emergency Operations Centers (EOCs) C. Joint Information System (JIS) D. MAC Group 18. Incident reports, such as status reports and status reports, raise awareness of the situation and ensure that staff have access to the information they need. A. THE TRUTH IS BA FALSE 19. The incident plan was prepared by the General Staff from what section? A. Operations B. Finance/Administration C. Planning D. Logistics 20. Jurisdictions receiving mutual assistance can obtain resources if they do not meet its needs. A. Redirect B. Store C. Reducing D. Neglect 21. When an incident occurs or threatens, local emergency personnel manage the response using the principles of NIMS and ICS. If the incident is or becomes large or complex, . A. Federal authorities are helping. B. Local EOC are activated. C. A unified command has been created. D. Mutual assistance agreements are being implemented. 22. What resource management activities determine and verify that staff are entitled to a specific position? A. Qualification B. Planning C. Certification D. Credentials 23. The need for cue can make it more difficult to share information between emergency responders. A. Privacy B. Advanced Equipment C. Verified Sources D. Social Media 24. What type of ICS facility is used for temporary assignment and accounting for personnel, supplies and equipment awaiting appointment? A. Incident Base B. Incident Command Post C. Camp D. Staging Area 25. In NIMS, resource inventory refers to preparedness activities conducted outside of incident response. A. TRUE B. FALSE 26. What is the major component of NIMS describes the recommended organizational structures for incident management at the operational and incident support level? A. Resource Management B. Command and Coordination C. Communications and Information Management 27. What resource management activities establish common definitions of staff, equipment, groups, supplies and facilities? A. Identify and input B. Acquisition, storage and inventory of C. Skills, Certification and Staff Certification D. Resource Planning 28. The issue is the central location of the Joint Information System (SIA) and where public information officers perform public relations functions. A. Joint Information Center (JIC) B. MAC Group C. Emergency Operations Center (EOC) D. Incident Command Post 29. The MAC group does not replace functions of the EOC or other dispatch organizations. A. TRUE B. FALSE 30. When only certain members of an EOC team or organization are activated to monitor a real threat, what activation level has been implemented? A. Level 1 - Full Activation B. Level 4 - No EOC is required C. Level 3 - Normal Operations / Sustainability D. Level 2 - Improved Sustainable-State 31. The ability of emergency management and response personnel to interact and work well together describes which of the key principles of communication systems and information systems? A. Reliability, scalability and portability B. Sustainability and redundancy C. Compatibility 32. NIMS components adapt to planned events such as sporting events. A. TRUE B. FALSE 33. EOCs can be fixed locations, temporary amenities, or virtual structures with staff participating remotely. A. TRUE B. FALSE 34. What is the characteristic of NIMS management that includes documents that record and communicate with incident targets, tactics, and assignments for operations and support? A. General terminology B. Information and Intelligence Agency C. Integrated Communications D. Incident Planning 35. When an incident occurs or threatens, local emergency personnel manage the response using the principles of NIMS and ICS. If the incident is or becomes large or complex, . A. Federal authorities are helping. B. Local EOC are activated. C. Mutual Assistance Agreements are being implemented. D. A unified command has been created. What is the characteristic of BATIS management that implies the use of standardized names and definitions for core organizational functions and units? A. General terminology B. Unified Command C. Comprehensive Resource Management D. Modular Organization 37. What is the characteristic of NIMS management that follows established processes of data collection, analysis, evaluation, exchange, and management? A. General Terminology B. Information and Intelligence Agency C. Creation and Transfer of

Command D. Integrated Communications 38. What is the characteristic of NIMS management that allows agencies to connect, share information and achieve situational awareness? A. Incident Planning B. Information and Intelligence Agency C. Integrated Communications D. Comprehensive Resource Management 39. At NIMS, resource inventory refers to preparedness activities in response to incidents. A. during B. out C. with D. instead of 40. What configuration of the EOC allows staff to operate in the EOC with minimal preparation or launch time? A. ICS or ICS-like EOC Structure B. Strategic Joint Command Structure C. Office Structure D. Incident Support Model (ISM) Structure 41. ICS provides a standardized approach to staff command, management and coordination Emergencies. A. EOC B. not activated C. On-scene D. Off-site 42. As far as input is concerned, which of the following characteristics is usually used to classify resources? A. Opportunity B. Location C. Number is available D. Color 43. What a big NIMS NIMS NIMS describes recommended organizational structures for incident management at the operational and incident support level? A. Resource Management B. Communications and Information Management C. Command and Coordination 44. Which structure does NIMS develop, recommend and implement public information plans and strategies? A. MAC Groups B. Incident Management System C. Emergency Operations Center (EOC) D. Joint Information System (JIS) 45. EOCs receive senior level guidance from: A. MAC Groups B. Incident Management System C. Joint Information Center D. Joint Information System (JIS) 46. Full EOC activation may include support staff. A. TRUE B. FALSE 47. What structure does NIMS make in-collaboration with multi-sectoral solutions? A. MAC Groups B. Incident Management System C. Emergency Operations Center (EOC) D. Joint Information System (JIS) 48. What is the task of resource management that establishes and maintains resource availability and ensures that suppliers are paid for on time? A. Reimbursement and replenishment of B. Track and Report C. Mobilize D. Order and Acquisition 49. What is the characteristic of NIMS management that helps to eliminate confusion caused by conflicting instructions? A. Chain of Command and Unity Command B. Target Management C. Information and Intelligence Agency D. Accountability 50. What does NIMS management characterize include developing and issuing tasks, plans, procedures, and protocols for tasks? A. Managed Management Range B. Comprehensive Resource Management C. Modular Organization D. Office of Goals 51. When do leaders plan and prepare for the demobilization process, in BATS? A. At the end of the incident. B. During recovery. At the same time, they are beginning to mobilize resources. D. When moving between operating periods. What communication management practices include specifying all communication systems and platforms that parties will use to share information? A. Equipment Standards B. Agreement C. Policy and Planning D. Standardized Communications Types 53. What is the characteristic of NIMS management that includes maintaining accurate and accurate inventory of personnel, equipment, groups, and supplies? A. Comprehensive Resource Management B. Incident Objects and C. C. Targets D. Dispatch/ Deployment 54. The establishment of mutual assistance agreements to obtain resources from neighbouring jurisdictions is an example of what resource management activities are? A. Acquisition, storage and inventory of B. Resource Identification and Input C. Skills, Certification and Certification of Staff D. Resource Planning 55. What niMS guidelines support compatibility between multiple organizations? A. Unity Effort B. Adaptation C. Standardization D. Flexibility 56. What is the task of resource management determines the type, quantity, location of receipts and users of resources? A. and the acquisition of B. Track and Report C. Mobilize D. Identify Requirements 57. What team line-up serves as the contact point of the incident team for organizations not included in the Incident Command or Joint Command? A. Public Information Officer B. District Commander C. Security Officer D. Communications Officer 58. What is the task of resource management that involves activating local resource needs, if any? A. Track and report B. Mobilize C. Order and Purchase D. Reimbursement and restocking 59. One of the functions of the EOC is to provide coordinated support to incident command, incident personnel and other EOC if necessary. A. Truth B. False Lies is-700.b answers quizlet. final exam for is-700.b answers quizlet
